The following are detailed descriptions of the specific enhancements in this release:

Feature	Description
Producer Manager BI Requests can now send Cost Center to BI 3 <sup>rd</sup> Party	Producer Manager Background Investigation requests now sends Cost Center information to BI Third Party vendors. Background Investigation requests sent using Producer Express will also send Cost Center information.
User can Select a Reoccurring Date to Schedule Interactive Reports	Interactive Reports can now be scheduled to run and export on weekly, monthly or yearly reoccurring basis. The report will be available for download from the My Reports section of the Interactive Reporting Dashboard for 30 days after it has completed downloading by clicking on the Name of the Report.

### Bug Fixes

The following is a log of bugs that have been fixed in Production since the last release:

Bug	Resolution
Branch Office Syncing: Assigned, Missing Branches with no Replacement Prevents a Different Branch from Being Assigned	A problem occurred when a branch was assigned and missing without a replacement and a user tried to assign a new branch. The user received a validation error stating "The PDB groups assigned to this firm already contain the license types included in the selected PDB group for the following states:
